MEMORANDUM FOR: Deputy Assistant Director for Policy Coordination
SUBJECT : Parking Spaces
REFERENCE : Memo dtd 26 Mar 51 fr AD/PC, subj: "Parking Spaces."

1. I have the deepest sympathy for these needs.
2. I am completely defeated on my prospect of getting even one more parking space anywhere in Washington. The National Park Service, which has most of the public park land, is absolutely adamant and will give nothing. It is against the law to lease land for such purposes and there is no maneuver which I can think of to get around either of these two stymies.
3. I am having an investigation made with respect to the public transportation service for the "K" and "L" Buildings area to see if either it can be improved or if there is need for supplementing the existing public transportation by a measure of our own bus service.
4. I am most sorry indeed to be forced to confess to failure.
5. Your memorandum is being forwarded to Administrative Services for the record.
